

Setting up LabVIEW19

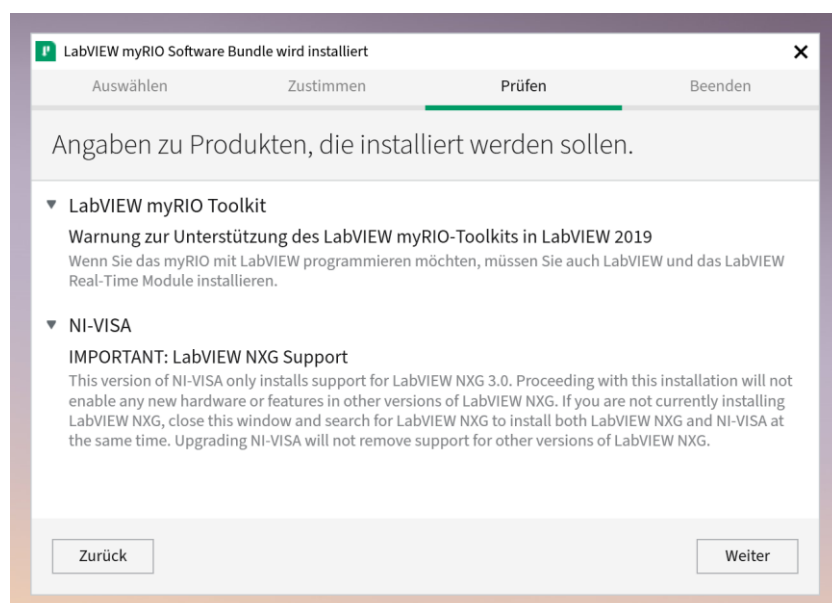

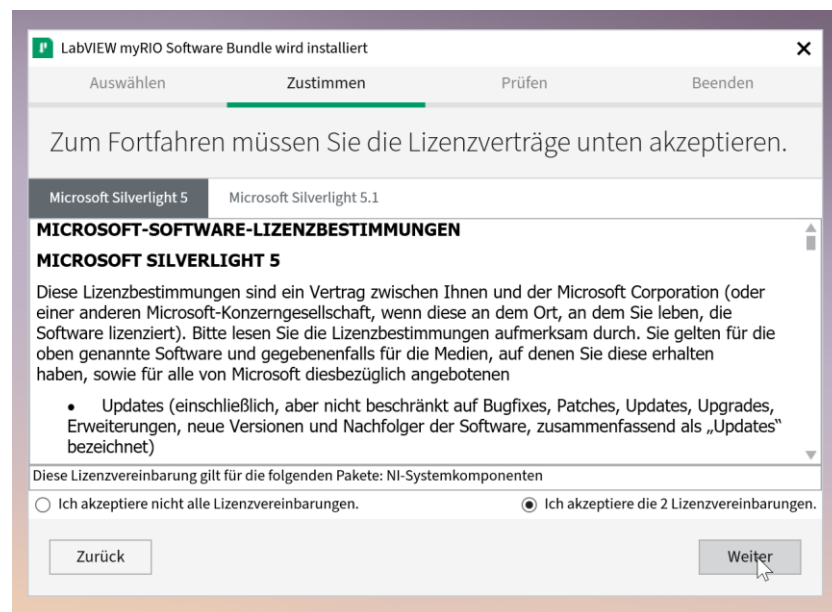

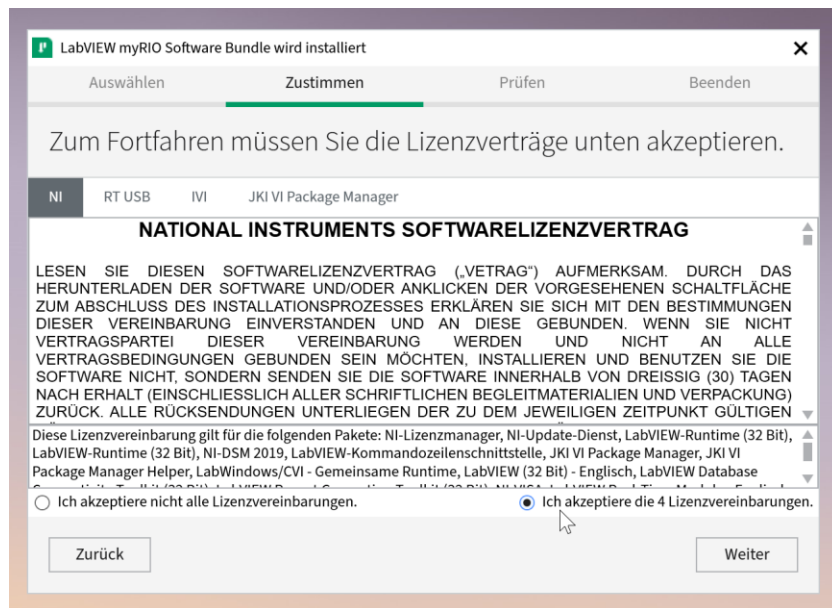

Download

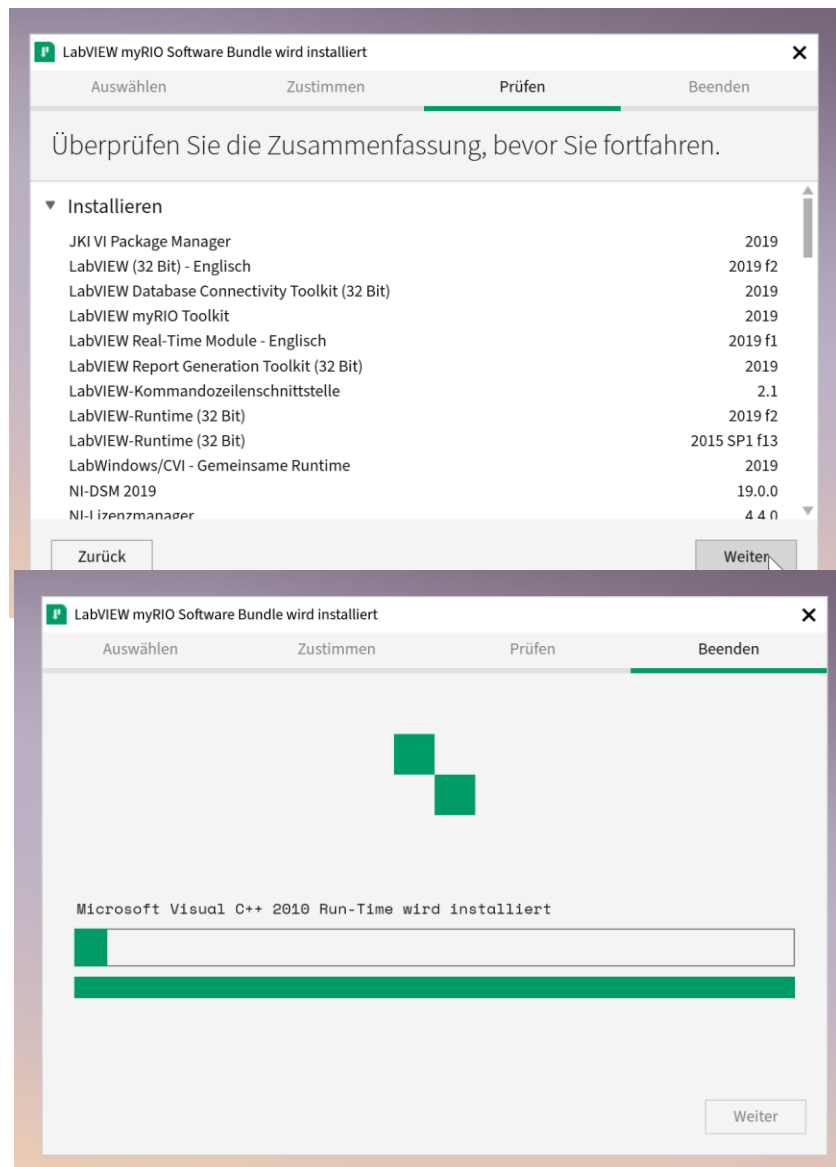

1. Install LabVIEW 2019 with myrio toolkit: SPECIFICALLY - **LabVIEW 2019 myRIO Software Bundle (or newer version)**
or
install **ni-myrio-software-bundle-x86_7.0_suite_online_repack2.exe**
2. Install VI Package Manager from <https://vipm.jki.net/>
3. Install from within VI Package Manager all the OpenG packages for LabVIEW 2019

The Installation:

Note: when performing the installation on the tablet, make sure to use the NI user profile of the supervisor, as it gets displayed when opening Labview.
